The Neighbors Law Enforcement Portal is a web-based portal that allows law enforcement to collaborate with members of the online community using the Neighbors app

- The Neighbors Portal displays all of the publicly shared posts from the neighbors app in the form of an interactive feed and pin map
- Law enforcement can engage neighbors by commenting on posts, requesting or sharing additional information
- The Portal allows law enforcement to send hyper-local alerts to neighborhoods
- When a crime occurs, the Portal provides a mechanism to submit a request for video to Ring device owners

A quick recap of the information I shared today

The cornerstone of this effort is the Neighbors app, a smartphone app that allows citizens to participate in a digital neighborhood watch, sharing crime and safety information with their neighbors

- The Neighbors app is free to download. Users are not required to own a Ring device
- Neighbors share crime and safety information with their neighbors in the form of video, photos or text
- The app is completely vendor neutral. Neighbors can upload and share videos from any home surveillance system
- Neighbors receive real time alerts about crime and safety incidents occurring in their neighborhood
- Moderators actively review all posts to ensure they are crime & safety related

The Neighbors Law Enforcement Portal is a web-based portal that allows law enforcement to collaborate with members of the online community using the Neighbors app

- The Neighbors Portal displays all of the publicly shared posts from the neighbors app in the form of an interactive feed and pin map
- Law enforcement can engage neighbors by commenting on posts, requesting or sharing additional information
- The Portal allows law enforcement to send hyper-local alerts to neighborhoods.
- When a crime occurs, the Portal provides a mechanism to submit a request for video to Ring device owners

Morning sir.

Could you please review and approve the attached MOU from Ring. We have spoken to Ring regarding a LEO portal offered to agencies at no costs and viewed a presentation of the portal. This program provides law enforcement personnel the ability to review video footage and communicate with Ring customers and citizens who utilize the neighbors app. The video is shared with their consent. If evidence of crimes or other footage is needed for our use a subpoena and/or warrant will be sought. If there are any other questions you have regarding this, please let me know. This MOU is written and provided by Ring's legal team.

Thanks!

Thanks for your time today We're excited at the possibility of collaborating with Palm Bay to reduce crime in the community Attached to this email is the Memorandum of Understanding Please circulate for review and contact me directly if there are any concerns or requested modifications

I'm also available to come out and present in person or via webinar to staff at the PD

A quick recap of the information I shared today

The cornerstone of this effort is the Neighbors app, a smartphone app that allows citizens to participate in a digital neighborhood watch, sharing crime and safety information with their neighbors

- The Neighbors app is free to download Users are not required to own a Ring device
- Neighbors share crime and safety information with their neighbors in the form of video photos or text

- The app is completely vendor neutral. Neighbors can upload and share videos from any home surveillance system
- Neighbors receive real-time alerts about crime and safety incidents occurring in their neighborhood
- Moderators actively review all posts to ensure they are crime & safety related

The Neighbors Law Enforcement Portal is a web-based portal that allows law enforcement to collaborate with members of the online community using the Neighbors app

- The Neighbors Portal displays all of the publicly shared posts from the neighbors app in the form of an interactive feed and pin map.
- Law enforcement can engage neighbors by commenting on posts, requesting or sharing additional information
- The Portal allows law enforcement to send hyper-local alerts to neighborhoods
- When a crime occurs, the Portal provides a mechanism to submit a request for video to Ring device owners.

Thank you again for attending the Neighbors Portal Coordinator training. Below you'll find a recap of our call.

1 Commenting and Posting in Portal

Investigators often find actionable intelligence on the Neighbors feed in Portal. Use the Neighbors Feed to see real time crime and safety posts from your residents and think of ways you and your unit can join those conversations.

As discussed, here's the suggested engagement plan for the Investigations Unit.

- Detectives are encouraged to log into Portal, review the Neighbors Feed and take action if applicable.
- Detectives zoom into the map where crimes have occurred, filter by date/time, and see if videos or posts from residents contain intel, persons-of interest or suspects.
- Detectives comment on posts from residents that could be or are related to their cases.
- Detectives can submit video requests for investigations.
- Detectives create Posts to request information regarding incidents (like Tampa PD). To maximize the reach, we recommend creating a Post to complement the video request.
- A Post should always be created alongside a Video Request (VR). When a civilian receives a VR email, they often delete it because they don't understand what the email is for. To provide context around the email, create a Post alongside a VR.

Template for Post

Subject [Video Request] Please submit any helpful evidence

Location [address of incident]

Description On [Date] a crime was committed in the area of [location]. You may have received an email from us requesting captured video that can help solve this case. Please check your email. If you have any evidence (video, photos, etc.) that may help, please share with us by sending any relevant footage to [detective email address].

2. Ring Law Enforcement Guidelines

Here is a link to the Ring Law Enforcement Guidelines. These are also available in the Resources section of Portal. You'll find information regarding how to submit preservation requests, subpoenas and more.

As your Partner Success Manager I'm here to help, so please reach out any time! I'll follow up as we get closer to the onboarding date with more information.
